Sir:

20 In the response to the examiner's office action, filed  
March 1, 2003 (February 29 was a Sunday) with a petition  
for a 3 month extension of time; the applicant failed to  
include the corrected specification responsive to the  
office action for lack of antecedent basis for the claims;  
25 pursuant to MPEP 608.01 (1), and instead inadvertently  
forwarded a clean amended specification. The applicant has  
now forwarded a marked up version of the corrected  
specification and amended claims via telefax.

In addition, pursuant to and in compliance with rule 37  
30 CFR 1.121 and MPEP 714.03 Rev 1; the applicant has  
reformatted the amendment to begin each section of the  
amendment on a separate page, included double spacing, and  
page numbers for reference by the examiner. No other  
changes have been made and no new matter was added to the  
35 specification that was not originally disclosed in the  
original claims.
